

## Segni Guta

### PERSONAL DETAILS

Current Location Rajkot  
Date of Birth March 11, 2000  
Gender Male

### EDUCATION

#### Graduation

Course BE / B.Tech ( computer engineering )  
College Marwadi University, Rajkot  
Year of Passing Graduating in Jul 2023  
Score 9.14/10

#### Schooling

Board Name Other  
Medium English  
Year of Passing 2018  
Score 85%

#### Class XII

Other  
English  
2016  
85%

#### Class X

Other  
English  
2016  
90%

### SKILLS

- Javascript
- Reactjs
- Nodejs
- CSS
- HTML5
- MySQL
- Java
- C++
- C
- Data Structures
- OOP

### CERTIFICATIONS

- Certificate Course in Database Programming
- Certificate Course in Web Application Developer
- Certificate Course in Web Page Designin

### LANGUAGES KNOWN

English

### PROJECTS

#### DJSF-cosmetics shopping website | 05 Month(s)

- This is a project done by using the MERN stack. It is an e-commerce site. It has all the basic functionality that a typical e-commerce website could have, including review, add to wish list, add to cart, review functionality.

This project is done by three people including me. I was one of the project coordinators for this project. We were self-motivated to do this project in order to level up our skills.

#### AlgoSimplified -A sorting visualizer website | 2 Month(s)

- This is a project that is done with the intention to help students understand data structures and algorithms better. It shows how a particular algorithm works, and what is happening as the code executes.

It has different features like increasing or decreasing the speed, user-defined input, auto-generation of random numbers, trace coding i.e., it shows which code is being executed as the visualization is happening, showing algorithm analysis of a particular algorithm, mobile responsiveness, etc.

#### E-note | 4 Week(s)

- This is a website that is used to store notes online. It has all the basic operations that a user needs to do on an online note storing website like registration, login, creating a note, deleting a note, editing a note is included.

I have used Core Java, servlets, JSP, and MySQL to develop this website.
